Steps

Step	1
Action	Open https://qa.demoshopping.ru/payment
Expected result	The Оплата page is opened, active orders are displayed
Status	Passed

Step	2
Action	Select a card payment method
Input data	For card payment methods see Parameters
Expected result	The card payment method is selected, the card data input fields appeared
Status	Passed

Step	3
Action	Choose a status of a card that is not "valid"
Input data	For cards statuses see Parameters
Expected result	The status is chosen
Status	Passed

Step	4
Action	Input a card number into the "Номер карты" input field
Input data	For test data see the table
Expected result	The card number is displayed without errors
Status	Passed

Step	5
Action	Input a valid first name into the "Имя" input field
Input data	For Input validation data [see the table](#)
Expected result	The first name is displayed without errors
Status	Passed

Step	6
Action	Input a valid last name into the "Фамилия" input field
Input data	For Input validation data [see the table](#)
Expected result	The last name is displayed without errors
Status	Passed

Step	7
Action	Input a month of expiry into the "MM" input field
Input data	For test data [see the table](#)
Expected result	The month is displayed without errors
Status	Passed

Step	8
Action	Input a year of expiry into the "ГГ" input field
Input data	For test data [see the table](#)
Expected result	The year is displayed without errors
Status	Passed

Step	9
Action	Input a CVV into the "CVV" input field
Input data	For test data [see the table](#)
Expected result	The CVV is displayed without errors
Status	Passed

Step	10
Action	Input a valid email into the "Email для отправки чека" input field

Input data	For Input validation data [see the table](#)
Expected result	The email is displayed without errors
Status	Passed

Step	11
Action	Click the "Оформить заказ" button
Expected result	The payment is unsuccessful, the error message is displayed
Status	Passed
